This is a challenging and beautiful ride around the border of our city. This is an invitational club ride *where you can get to know us and perhaps become a member.*

The ride is led by club members in groups of 10 to 20 and generally done as a stay-together ride. There will be a fully stocked lunch stop and two rest stops.

There are several paces and levels:

PROS: 86 miles—includes hills and beautiful water passages.
Strenuous and moderate paces.

PROS Lite: 56 miles around the city's south end. Still hilly and beautiful water passages.
High moderate and low moderate paces.
